澁谷工業 模切板加工用雷射機

CO2 LASER CUTTING MACHINE
for DIEBOARDS

特點

實現針對大型光電模切板要求的高精度加工

The high end machine applied with both large size die board and high accuracy cutting.

藉由固定光路長度來實現加工品質的穩定

A special optical path system enables a constant length to be achieved.

採用密封雷射發振器，大幅減少日常維護作業

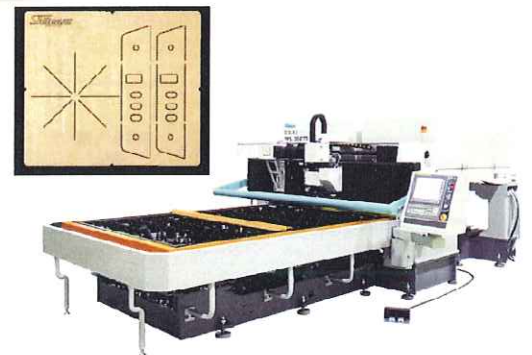

Daily maintenance work is dramatically reduced because of sealed gas resonator.

高效排煙通道保證作業環境良好

Highly efficient fume and dust extraction.(both the upper and lower sides)

具有切割方向不同，自動調整加工參數確保切縫寬度一致的軟體

Use of multiple software ensures accuracy and precision.
